Master it!

B1 Preliminary for Schools

Master it! B1 Preliminary for Schools ensures exam success through: step-by-step guidance on how to tackle each type of task; 6 Practice tests (2 of which are online); grammatical and lexical reinforcement.

Scaffolding: training and tips for each type of task

- In the *Training* sections, tips, guided exercises and checklists help students master each part of the exam.

Get Ready: vocabulary and grammar with common mistakes

- The *Get Ready!* sections at the end of each test review vocabulary and grammar and focus on the common mistakes that language learners might make.

Oracy File: stems and talking points for effective communication

- The *Oracy File* section helps students communicate effectively during the Speaking parts of the exam. Lists of sentence stems useful for starting and continuing conversations scaffold students' talk so they are able to focus more freely on the task; activities covering the different topics included in the exam encourage students to hold conversations and further develop their speaking and active listening skills.
