297e Atlante della rivascularizzazione percutanea

Caso 1: Occlusione cronica totale

- Video 297e-1** Baseline left coronary angiogram shows an occluded LCx...
- Video 297e-2** Attempts to cross the total occlusion in the LCx using...
- Video 297e-3** The LAD septal collateral is accessed with a guidewire...
- Video 297e-4** The total occlusion is crossed retrograde. The wire is snared in the guide...
- Video 297e-5** Antegrade flow in the LCx is restored after balloon inflation.
- Video 297e-6** Following stenting of the total occlusion, blood flow in the distal...
- Video 297e-7** Final result after LCx stenting.

Caso 2: Stenting delle biforcazioni

- Video 297e-8** Baseline angiogram of the left coronary circulation shows the significant...
- Video 297e-9** Both vessels are accessed with guidewires and pre-treated...
- Video 297e-10** Result after balloon angioplasty.
- Video 297e-11** Stent being positioned in the LAD.

- Video 297e-31** Next, the LAD wire is removed and passed through the...
- Video 297e-32** Following rewiring of the LCx, both stents are re-dilated simultaneously...
- Video 297e-33** The final result in the LAO caudal view.
- Video 297e-34** The final result in the RAO cranial view showing patent left main...

Caso 6: PCI multivaso in paziente diabetico

- Video 297e-35** Baseline angiogram of the left coronary circulation...
- Video 297e-36** A guidewire is passed through the total occlusion and the lesion...
- Video 297e-37** Following placement of a drug-eluting stent in the lesion...
- Video 297e-38** The ramus intermedius lesion was crossed with a guidewire...
- Video 297e-39** A drug-eluting stent is placed across the ramus lesion and deployed...
- Video 297e-40** Baseline angiogram of the RCA shows a high-grade lesion...
- Video 297e-41** The lesion was pretreated with balloon dilation followed by stent deployment.
- Video 297e-42** The final result shows no residual stenosis in the mid-RCA.

Caso 7: Trombosi molto tardiva in uno stent a rilascio di farmaco su IVA prossimale

- Video 297e-43** Baseline angiogram showing a total occlusion of the proximal LAD...
- Video 297e-44** The LAO view shows the LCx stenosis with a filling...
- Video 297e-45** The LAD lesion was crossed with a guidewire, which resulted...
- Video 297e-46** The final result after LAD and LCx stenting. The LAD lesion...

Caso 8: Impianto valvola aortica transcateretere

- Video 297e-47** Aortogram shows patent coronary arteries and minimal aortic insufficiency.
- Video 297e-48** Balloon valvuloplasty is performed with rapid ventricular pacing at 180 bpm.
- Video 297e-49** A 26-mm Edwards SAPIEN valve is positioned using fluoroscopic...
- Video 297e-50** Aortogram after valve deployment shows a functional valve...
